World Campus E-Books | Penn State University Libraries

Just as Hirschi had built upon previous control theories with his introduction of social control theory, Gottfredson and Hirschi further developed their conception of the causes of crime and encapsulated it within a new theory: the general theory of crime. While control theory emphasizes the importance of social bonds as an insulating factor against criminal involvement, the general theory of ...

Criminology (CRIM) < George Mason University

One of the most famous criminological theories is differential association theory, first formulated at about the same time as Merton's anomie theory by Edwin H. Sutherland and published in its final form in an edition of a criminology text he wrote (Sutherland, 1947). Sutherland rejected the idea, fashionable at the time, that crime had strong biological roots and instead said it grew out of ...
