English-language works and translations, but the same is true of all the ebook download sites we've looked at here.

Earth Science Stars And Galaxies

The smallest elliptical galaxies are as small as some globular clusters. Giant elliptical galaxies, on the other hand, can contain over a trillion stars. Elliptical galaxies are reddish to yellowish in color because they contain mostly old stars. The large, reddish-yellow object in the middle of this figure is a typical elliptical galaxy.

Galaxies | Earth Science - Lumen Learning

It seems much bigger than other stars in the sky because it is much closer to Earth. Stars form immense groups called galaxies. A galaxy can contain many millions of stars, held together by the...
