Stahl's Essentials is theory of drug-receptor interactions, Maudsley is very practical (as is APA's Manual, though I like Maudsley more). If you're talking about Stahl's Prescriber's Guide, I don't like it at all because it contains a huge amount of unnecessary repetition and some theory-based handwaving, while missing a good amount of actually important information about drugs

Textbook Recommendations | Student Doctor Network

The Maudsley Guidelines on Advanced Prescribing in Psychosis offers a resource that puts the focus on the need to treat the individual needs of a patient. The authors - noted experts on the topic -...

The Maudsley Prescribing Guidelines in Psychiatry: Edition ...

Maudsley is okay but it's more oriented towards the EU. Some of the drugs aren't in the US. In residency, I bought the 'APA Textbook of Psychopharmacology' 5th edition. I might be a little off on the name.
