Handbook Of Social Problems A

The essays in this volume focus on interrelated issues involved in the relationship between social problems and the level of development and affluence. The Handbook explores the theory of the weakness of the strong—in other words, strong or wealthy nations may have greater vulnerability to some social problems than less developed or affluent societies.

Handbook Of Social Problems A Comparative International

Adapting social problems theory, we then present an analytical framework for globalizing social problems inquiry and praxis. Two cases illustrate this globalized approach to social problems. Last, we conclude with a view toward the future of global social problems research, its place in the wider sociological project, and the importance of transnational intellectual and organizational praxis.
