designing and controlling the process of production and redesigning business operations in the production of goods or services. It involves the responsibility of ensuring that business operations are efficient in terms of using as few resources as needed and effective in meeting customer requirements.

Operations

In addition, the issuer in planning its long-range financing may view the convertible debt as a means of raising equity capital over the long term. Thus, if the market value of the underlying common stock increases sufficiently after the issue of the debt, the issuer will usually be able to force conversion of the
