Using manipulatives when teaching math is important. Manipulatives help learners visualize the numbers and remember as much as possible. You are trying to make numbers come to life for your learners. Base your instruction in your learners' real world experience and have manipulatives on hand to show them what you're talking about.

Money Math Matters: Life, Education, and Assessment
Every athlete or fan uses math to understand scores and stats. Every great cook uses math to measure accurately, make larger or smaller amounts of a recipe, or adjust for conditions like time, temperature, or altitude. Saving and spending money, crafting and building, gardening, singing, or playing an instrument—all of these use math.
