How To Make A Paper Helicopter - Babble Dabble Do

Since the paper models have no motor, they only have one source of lift. As the paper models fall they will spin, imitating the rotation of the rotor blades of a helicopter. Because there is no thrust to produce upward movement, the helicopter will not fly upward, but the spin will reduce the rate of fall by producing lift, resisting the force ...

What you need to make this helicopter craft: Jumbo craft stick; 6” dowel or a paper straw; E6000 glue; Duct or other crafty tape. I used this camouflage design and this hot pink. Note: duct tape has a very difficult-to-stick surface, and I needed a lot of glue for that reason. You will probably be better off with a porous tape, even with the ...
