Recent macroeconomic and financial developments Growth in Malawi's economy decelerated in 2020 to 1.7% from 5.7 % in 2019. The slowdown in GDP growth was driven by the outbreak of COVID-19, which necessitated a partial lockdown of the economy, resulting in subdued economic activities—mainly in tourism, the accommodation and food subsectors, transportation, and agriculture. Other sectors ...

The economic development gap between coastal cities and other regions has engendered a sense of grievance on the part of regional government officials, who have misappropriated government money to create hastily planned development zones in an attempt to attract foreign investment. The resulting shortage of public money has frequently meant that residents have not received payments to which ...

Let me start with the economic outlook for the United States. Despite a pause early this year in the growth of real gross domestic product (GDP), the U.S. economy continues to power along at a healthy pace. The contraction in output reported in the first quarter was due to swings in two volatile categories, inventories and net exports, and I don't expect them to be repeated. Consumer spending ...
