The horsepower listed in the price guide tables is only a nominal value based on typical NEMA B motor data. Motors with high Full Load Currents (high efficiency or special design), motors with nameplate speed other than 1800RPM or non-NEMA B design motors should be priced with the Heavy Duty starters.

Contacteur Rating - Schneider Electric

Schneider's Cahiers Techniques is a collection of documents intended for engineers and technicians, people in the industry who are looking for more in-depth information in order to complement that given in product catalogues. Furthermore, "Cahiers Techniques" are often considered as helpful "tools" for training courses.
