Power Classifications and the accompanying number ratings are used by the PRT to quickly identify parahuman threats and strategize accordingly, although the system is used in non-American countries as well, including capes in India. Each classification is matched with a number indicating severity, where higher numbers mean a greater threat to public safety. In theory, power classifications are ...

The book gives some insight into how it must have felt to be dragged out of your home and forced into the countryside, to see atrocities around you, to lose close members of your family, and not really understand what was happening or what would happen next. I really did, however, have problems with the narrative choice of the book even if I felt I understood what the writer was trying to ...
