### **[PDF] The Biopsychosocial Formulation Manual A Guide For ...**

The Biopsychosocial Model and Case Formulation (also known as the Biopsychosocial Formulation) in psychiatry is a way of understanding a patient as more than a diagnostic label. Hypotheses are generated about the origins and causes of a patient's symptoms. The most common and clinically practical way to formulate is through the biopsychosocial approach, first described in 1980 by George Engel. [1]
