Understanding Pharmacy Reimbursement is the essential resource that allows you to more effectively deal with the rapidly changing and constantly emerging reimbursement issues over the next few years.

### Understanding Pharmacy Reimbursement - ASHP

At times, the fee is based on the "performance" of the pharmacy. This means that the PBM can take money back from the pharmacy and create a situation where the pharmacy does not receive adequate reimbursement to cover its costs due to arbitrary "performance" standards that frequently serve as a moving goal post.

### White Paper: DIR Fees Simply Explained - Pharmacy Times

If the AWP is reduced to align more closely with the actual acquisition cost, the pharmacy reimbursement rate is still at the contracted rate of the prescription drug cost minus 15%. If, for example, \$88 is the AMP, then the pharmacy will only be reimbursed \$74.80 from the third-party payor.
