NCERT Exemplar Class 9 Science Solutions Chapter 2 - BYJUS

Density is the mass per unit volume. In other words, it describes how much "stuff" is packed into a volume of space. Think of a rectangular kitchen sponge, which is airy and light, with lots of holes in it. Now imagine a block with exactly the same width, height, and depth as this sponge, but made out of solid metal. The block has a higher density than the sponge—there is more matter packed ...
