Windows 8 Resolution Keeps Changing

The changing of the resolution is basically Windows update 10 choosing a resolution on update which causes the resolution time out to become active. On my computer, the resolution that is being timed out is fine but still transitions to a black screen after the timer counts down. I have a tiny strawberry computer on a switch that allows me to change from one computer to another (Strawberry to ...

Windows 10 time keeps changing Solved - Ten Forums

Windows 11 keeps freezing for some users because of graphical issues, limited system RAM, program conflicts, corrupted system files, and more besides. Some users might need to run system files and disk scans to fix Windows 11’s hanging problem. Changing screen resolution settings can sometimes resolve persistent freezing. Adjusting virtual memory allocation is another way you might be able ...

FIX: Windows 11 keeps freezing randomly

I have about 100 computers to deal with and now Windows 10 keeps randomly changing the static IP’s I have set up at several locations to the WSD-9..port. Nothing prints when it’s on the WSD port. "Let Windows (stupidly) manage my default printer" is set to Off. Yet, everyday I come in someone can't print and it's the same problem everytime. Last week I watched it happen to each computer in our ...
